

Name: \_\_\_\_\_

In your packet is a copy of a “Home Energy Report” from BGE. Each household gets one of these each month.

1. Look at the sideways bar graph called “Neighbor Comparison”  
What information can you get from this graph? How is this person doing in their electricity usage?
  
  
  
  
  
  
  
  
  
  
2. Look at the bar graph below called “Personal Comparison”. What two things does this graph compare? Did this customer do better this year or last year? Explain and use numbers in your answer.

3. Look on the back at the “Personalized tips” for saving energy. List three ways this customer might save electricity? Explain.

4. If you got your family’s BGE Home energy report, how do you think yours would look? Why? Give specific examples. Bring in your home energy report for five points extra credit.
